

## SC-VoLTE M3

Analogue phone line interface with 4G connection

**SECURECOM**

The gateway allows that to connect analogue terminal equipment (e.g. lift alarms, intercoms or PBX) directly to the 4G network and make or receive calls over the public mobile network.

### KeyFeatures

- ✓ 4G network connection (with 2G fallback)
- ✓ Analogue telephone line emulation
- ✓ Outgoing and incoming call management
- ✓ Outstanding voice quality
- ✓ Remote management option via WEB
- ✓ Contact input alert to the specified phone
- ✓ Output control from voice call
- ✓ Setup and diagnostics via USB connection
